I have a 2002 audi a4 3.0 Quattro.  
Starting at 25 mph, it sounds like I have  
the sound of a motorboat coming from  
the engine compartment. It increases in  
pitch as speed increases. It appears not  
to be engine related, as I put the car in  
neutral and the sounds stays the same  
until speed is reduced. Any ideas? Safe  
to drive?
