From the Publisher: "Ming Design II is a welcome update of its predecessor, itself a useful compendium on the philosophy of cognitive science. This new volume retains the intellectual foundations, and some discussions of classical AI built on them, while adding connectionism, situated AI, and dynamic systems theory as extra storeys. Which of these is the most stable, and whether the ...

As the first philosophical study devoted to acting, *Acts: Theater, Philosophy, and the Performing Self* sheds light on some of the more evasive aspects of the acting experience- such as the import of the actor's voice, the ethical unease sometimes felt while embodying particular sequences, and the meaning of inspiration. Tzachi Zamir explores acting's relationship to everyday role-playing through a surprising range of examples of "lived acting," including pornography, masochism, and eating ...
