Adapt: Why success always starts with failure

In the increasingly complex world we live in, constant adapting (and accepting failure as part of the learning curve) is the most effective way to solving complex issues. The book postulates the Darwinian principles of evolution; variation and survival of the fittest are the way markets develop.

Success is the result of random tinkering and making decisions based on the feedback. Evolution is robust which is why it has proved so effective for so long. Harford gives a lot of ways for individuals and organizations to apply the concepts Nassim Taleb discusses as it relates to randomness and modernity.
