an alternative model to the bureaucratic model known as Taylorism. There is not a clear definition of the high performance organization, but research shows that organizations that fit this model all hold a common set of characteristics. Chief among these is the ability to recognize the need to adapt to the surroundings that the organization operates

High performance organization - Wikipedia

Part three discusses five principal types of applications of performance measures of value to public and nonprofit agencies: strategic planning, budgeting, performance management systems, process improvement efforts, and benchmarking organization performance against other agencies or programs.

Measuring Performance in Public and Nonprofit Organizations

Most nonprofit groups track their performance by metrics such as dollars raised, membership growth, number of visitors, people served, and overhead costs. These metrics are certainly important, but they don't measure the real success of an organization in achieving its mission. Of course, nonprofit missions are notoriously lofty and vague.
