The Iron Condor is formed when you have both Bull Put and Bear Call Spread positions placed in the same month, meaning that you expect the price to trade within a range. As you can see from the chart in Figure 1, it usually trades within a defined range: Figure 1 Another advantage of the Iron Condor is that it only requires "maintenance ...

**The Iron Condor Trading Guide - Amazon Web Services**

Other options traders are interested in the net premium they retain after the sale of their options, rather than the price of individual options. A simple example is an iron condor, which involves buying a put and a call while selling a put and a call altogether on the same stock with the same expiration date.
