The site they say will be closed by the end of June 2016, so grab your favorite books as soon as possible.

The Earth Has A Soul

Meredith Sabini heroically combed through the mountain of words, extracted passages about our relationship with nature, and published them as The Earth Has a Soul. It stitched together snippets from many sources, from different phases of his life, so it's not as flowing and focused as a discourse written from scratch, but it's an important collection of provocative ideas.

Amazon.com: The Earth Has a Soul: C.G. Jung on Nature ...

The Earth Has a Soul is a collection of writings on the subject of nature from Swiss psychoanalyst Carl Jung, taken from various book passages, lectures, and personal correspondences. The thesis running throughout the book is that modern life, increasingly urban and dominated by technology, is unhealthy for the psyche.

Traditionally, science has dismissed the soul as an object of human belief, or reduced it to a psychological concept that shapes our cognition of the observable natural world. The terms "life" and...

Does The Soul Exist? Evidence Says 'Yes' | Psychology Today

In twelve of his books he repeatedly asserted that the world has a soul, the Earth has a soul, or the universe has a spirit. According to Bruno, the Earth was alive, like an animal. Just as our bodies are made from matter, from bits of the Earth, so too he said that our individual souls come from soul of the Earth.
